CityCobble Pavers

CityCobble Pavers - Georgia Plant

CityCobble Rumbled® pavers offer a cobblestone look - the most popular look in segmental paving today. This 2 1/4" thick product includes two sizes, a 5 1/3" square and a 5 1/3" x 8" rectangle. When they are installed in an "I" or modified herringbone pattern, they give a random cobble look reminiscent of ancient walkways laid in stone.

CityCobble Mahogany
In an "I" pattern

CityCobble Siesta
in a Modified
Herringbone pattern

Tactile Pavers

ADA truncated dome pavers are required in transition zones between pedestrian and vehicular traffic areas.

Red in stock. Call for availability of other colors

Rumbled® Pavers

Tumbled after firing to represent an aged look of a paver that's been around for hundreds of years. This type of product is the fastest growing item in the hardscape business. (Available in 2 1/4" x 4" x 8")

Permeable Pavers

These new genuine clay permeable pavers allow rainwater to filter down through a specially constructed paving system and dissipate into the soil, rather than carry excess pollutants into storm drains.

Call for availability of other colors, see English Edge Series on back page.

See back page for dimensions.
